

CLOSING A LOAN really is the Best Part of the Process

Introducing SIGN AND GO loan closings

- No more waiting for a funding number at the closing table!
- We have streamlined the process and now you sign and go!
- Focus on your borrowers and the happy experience of buying a new home or saving money!
- Remove the stress of the closing funding process.

Here's how I can help your homebuyers SIGN AND GO:

This new process is designed to enable settlement agents to release clients from the closing in a timelier manner.

- When the final package is posted in non-escrow states, our closers will give the settlement agent a preliminary funding number. This authorizes them to disburse PRIOR to our reviewing the documents.
- The settlement agent is required to return the Slim Pack documents to the Doc Delivery Site within 24 hours of the borrower signing.
- The Closer/Funder will then review the documents, have corrections addressed, clear the funding conditions and release the final funding number.

Closing a loan with SIGN AND GO has never been easier. Learn more. Contact me today.
